

Questions for A Potential Lover

Before you become sexual (or sensual) with another person, here's a short list of the most important things to discuss. (You will also answer these questions for them!)

1. Who are you currently in relationship with?
2. What are your agreements with them?
3. What are you looking for in being sexual with me?
4. What do you want to do? What do you **not** want to do?
5. What is your relationship with sexually transmitted infections? (STI were previously known as sexually transmitted diseases, or STD.) In other words: Have you been tested, and if so for what and when? Do you have any STIs now? How do you protect yourself?
6. If relevant: How do you protect yourself or your partners from pregnancy? What would you do if you or I got pregnant?
7. How will being sexual change our relationship?
8. Anything else?
