### Other Books

- New View of A Woman's Body, Federation of Feminist Women's Health Centers, Feminist Press. This book goes in and out of print, but can usually still be obtained. Excellent illustrations, but little text in the one chapter that discusses anatomy. The other chapters are still quite interesting and relevant to women's health issues.
- The Clitoral Truth, Rebecca Chalker, Seven Stories Press, NY, 2000  
A recently published book that includes excellent text but with illustrations that are poorly conceived and difficult to comprehend.
- The Yoni—Sacred Symbol of Female Creative Power, Rufus C. Camphausen. Inner Traditions International. 1996.  
A beautifully illustrated book that also has an accurate female anatomy.
- Eve's Secret's: A Revolutionary Perspective on Human Sexuality,  
Josephine Lowndes-Sevely. Collins, 1987. Out of print but still available. This rather technical volume provides the basis for most of the other books listed here.
- Pelvic Power Eric Franklin. Elysian Editions, 2002 & 2003. Anatomy and exercises.
- The Female Pelvis –Anatomy & Exercises Blandine Calais-Germain. Eastland Press, 2003. Anatomy and exercises.
- Atlas of Human Anatomy. Frank H. Netter. Icon Learning Systems, 2nd edition, 1997. One of the few technical mainstream anatomy books that includes all of the female structures.

- Female Ejaculation & The G-Spot, by Deorah Sundahl, Hunter House, Inc, 2003. Excellent guide.
- The Good Vibrations Guide: The G-Spot by Cathy Winks, Berkely, Ca. Down There Press. 1998. Another good resource.
- The G Spot : And Other Discoveries About Human Sexuality by Alice Kahn Ladas, Beverly Whipple, John D. Perry. 1983. The original popular book.
